

Bravo™

Tampa International Jet Center now offers Air BP Bravo Rewards.

In an effort to say “thanks for your business” Tampa International Jet Center now offers the all new Air BP Bravo Rewards program. After an extensive analysis of Air BP customer’s needs and wants, a program was developed to offer more of what they’ve been seeking in a rewards program. Bravo Rewards is a customer loyalty program that should allow us to grow our business and significantly reward our faithful, repeat customers over time.

“We didn't want to offer just any rewards program to our customers. Bravo was developed to be better than any other program. “More options, more flexibility and more value, was the criteria we set and accomplished with this new dynamic program”, announced Steve McCullough, Vice President of Sales and Marketing for Air BP Aviation Services when the program was introduced at NBAA 2009.

BP has created the best customer loyalty program in the business. The program offers more rewards, more variety, and is very easy to participate in.

You will earn 2 points for every gallon you purchase at participating Air BP locations. You can also earn an additional point per gallon when you pay for your purchase with an Air BP Sterling Card, giving you a maximum of 3 points per gallon. The points accumulate quickly and there are more than 45 million options for gifts, savings certificates and travel available for redemption through the program. You can save points for something large, or redeem more often for smaller gifts, if you prefer.

Soon there will be over 400 Air BP dealers around the country offering these valuable rewards, making it even easier and faster to accumulate your points.

Watch for specials! We will periodically have special offers throughout the year, like DOUBLE points or special incentives for special times and holidays.

With millions of rewards, you're sure to find one that's got “you” written all over it.

*Bravo Rewards is just another way
Tampa International Jet Center
is soaring above and beyond your expectations.*
